TECHNICAL INFORMATION

Product type **HARDENER PASTE**

Application Used for hardening polyester mastics with manual dosage system.

TECHNICAL DATA

Density at 25°C gr/cm ³	1,15
Aspect	paste white
Dosage in gr. for 100 gr. of mastic	3
Storing time	If stored at temperatures between 18°C and 30°C away from bad weather in the original tins, the hardener paste will last 6 months at least.

Instruction for use Remove the required amount of hardener you will need, add it to the mastic and mix well.

Seal the tin after use.

Do not use mastic-stained tools.

Safety measures The hardener is a chemical product. We suggest to follow sanitary regulations as specified in our safeness data form.
